### JOB TITLE: COMPONENT PRODUCTION LEADER - INTERN

#### Your mission:

As an intern, you will participate partly in the job of a Component Production Leader who develops supplier's expertise to produce quality products within short lead-times and low cost.

#### Your responsibilities:

- You recruit, select and manage suppliers.
- You develop and industrialize new component (fabric, mesh...) with clear development planning.
- You monitor and optimize component costs.
- You evaluate and ensure the quality of component at your suppliers.
- You launch and pilot continuous improvement projects with your suppliers to make progress on their performance (quality, safety, environment, technology) and social compliance.
- You are responsible for a regular lap-top control.
- You measure and correct discrepancies.
- You explain and recommend changes.
- You ensure the process control in suppliers.

#### Your benefit:

- You develop yourself in a multi-national working environment.
- You get paid for your internship with the chance of permanent hiring with your outstanding performance at the end of the internship.
- You participate in training courses to develop your competence.
- You go on business trips paid by the Company.
- You join collective activities organized by the Company.

#### Your profile:

- You are fresh graduate with majors linked to chemical, textile.
- You are excellent in English. Speaking French/Chinese and participating in social activities are an advantage.
- You adhere to deadlines and prioritize your actions.
- You are ready to make decision and responsible for your decisions.
- You are highly motivated.
- Your understanding about production, especially in textile/garment/mechanical product industries would be an advantage.
- You practice sport.
